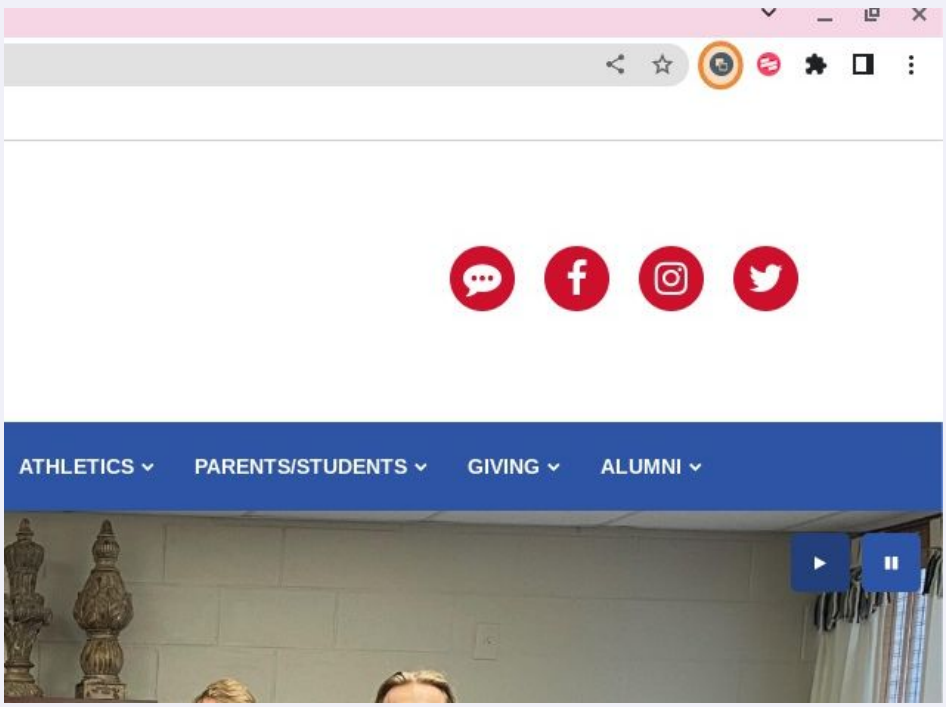
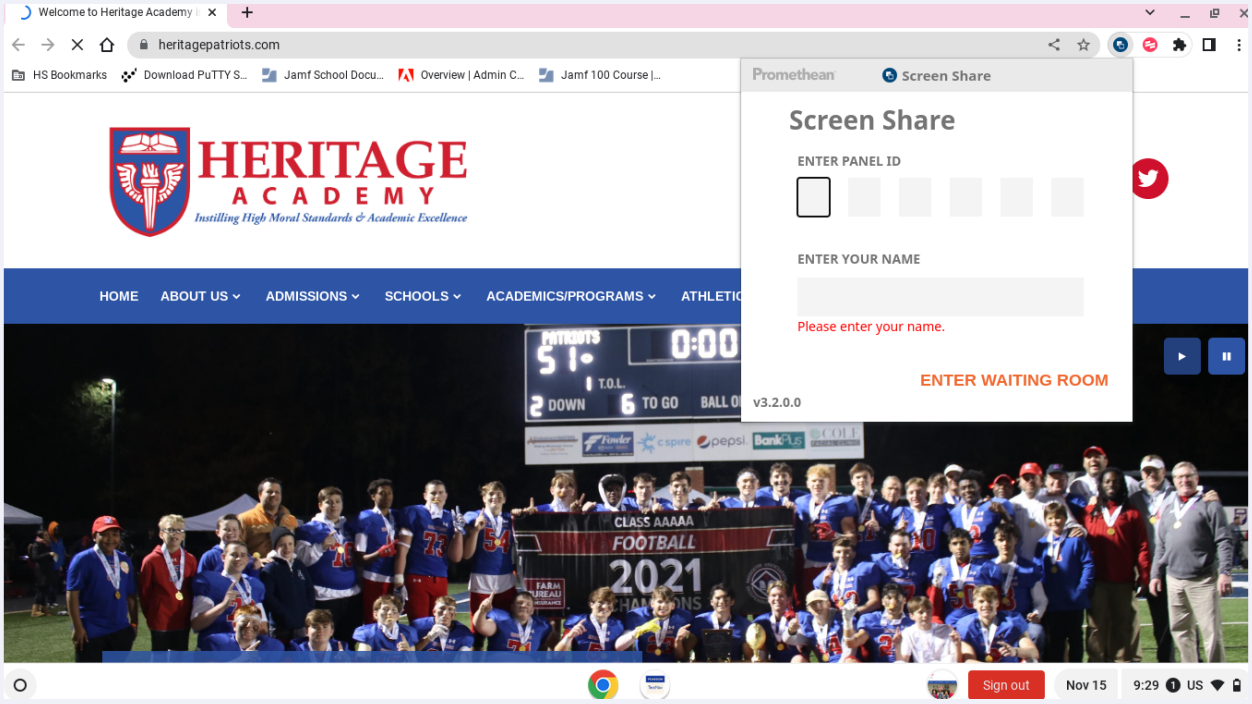
How to Share Your Chromebook Screen to the Promethean Board

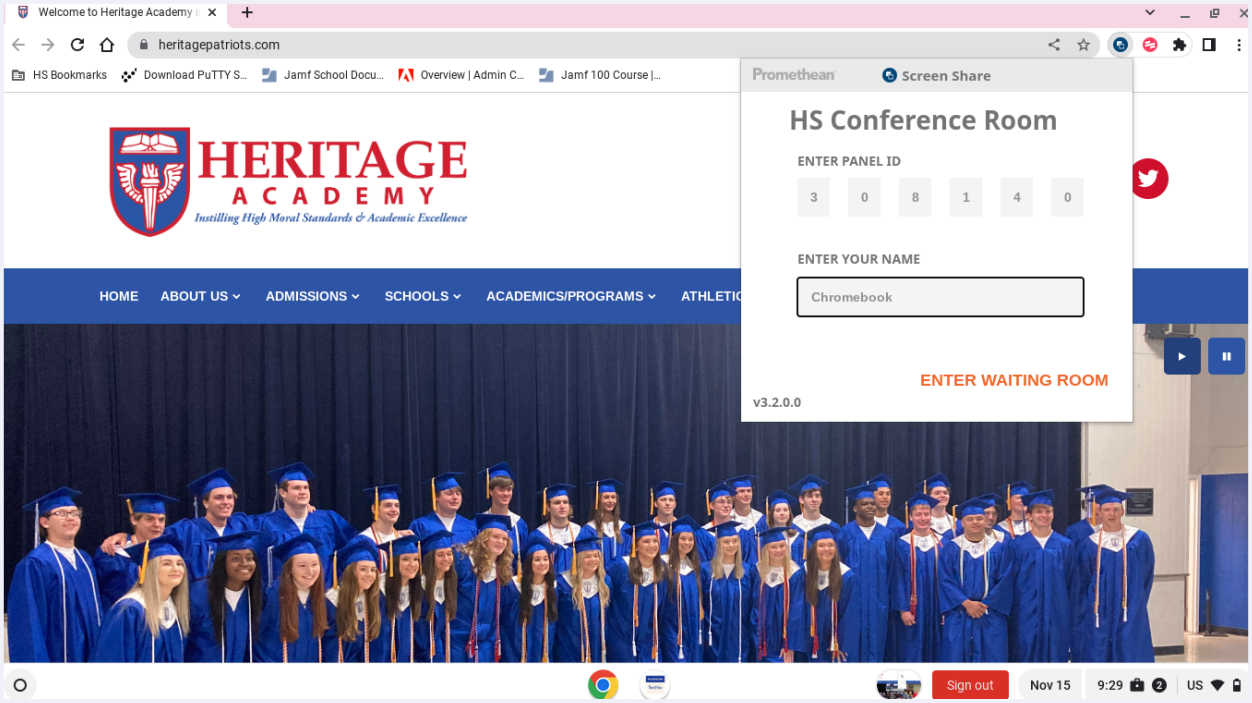
1 Click the Screen Share icon to the right of the address bar.



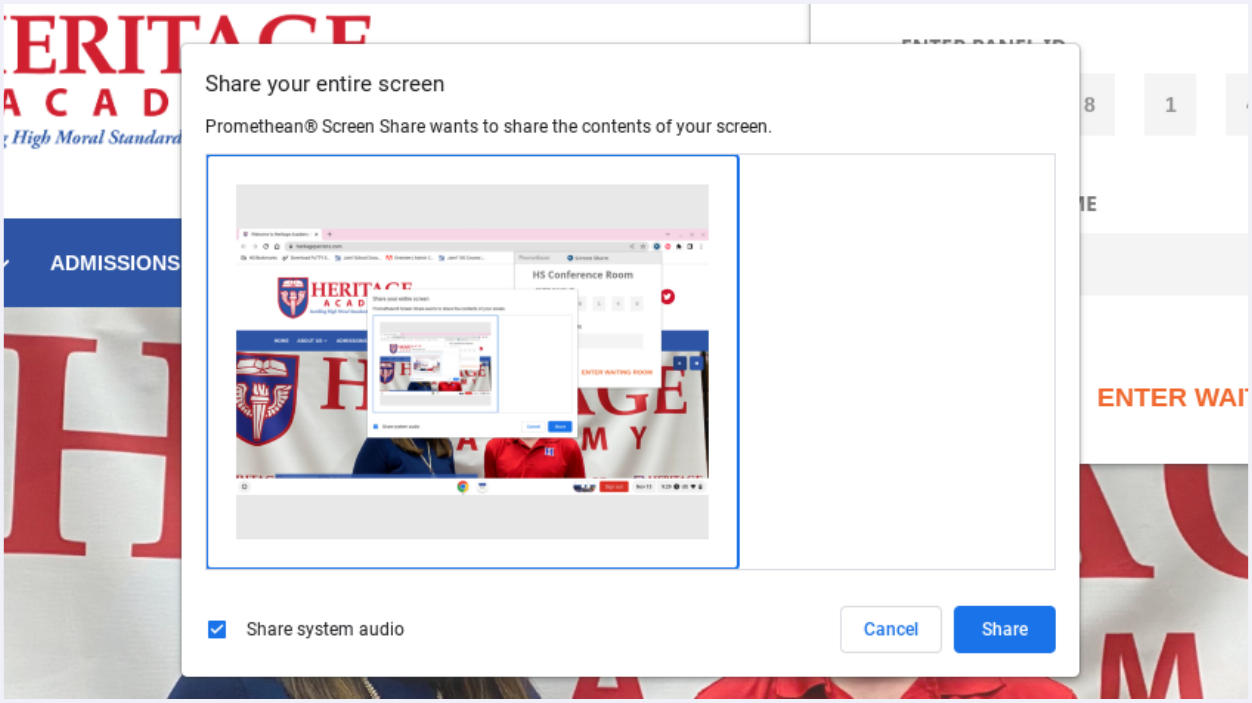
2 Enter the number from the Screen Share app on the Promethean Board in the boxes under Enter Panel ID.



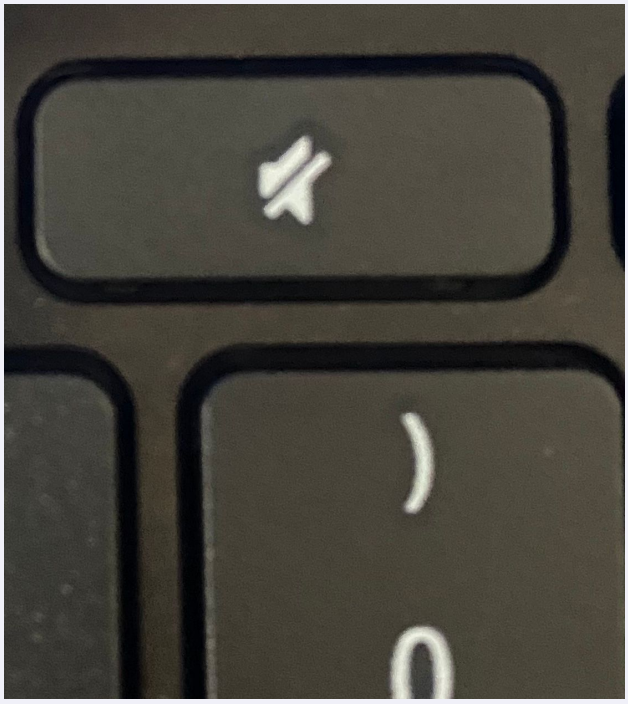
3 Type your name in the Enter Your Name box. Then click Enter Waiting Room.

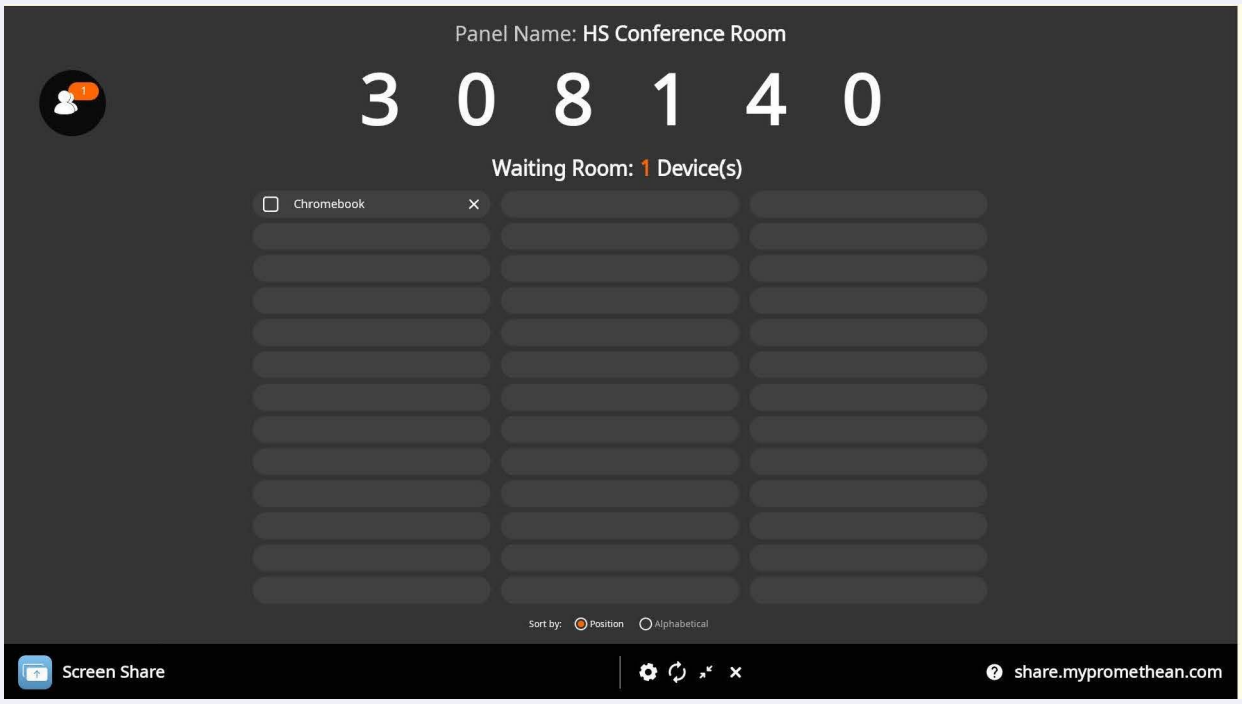


4 Click on the picture of your screen and click the box next to Share system Audio. Then click Share.



5 Click the Mute Sound button on your Chromebook keyboard. If you don't you will hear sound from your Chromebook and the Promethean board.





6 Go to the Waiting Room on the Promethean Board and tap your name.
